## SystemTwo

**MediaPOINTE SystemTwo** is a versatile, cost effective solution for virtually any business communications requirement. It's a Conferencing system... a Presentation system... a Powerful Multimedia Collaboration tool. And, SystemTwo doesn't sacrifice a thing for its size and portability. Its powerful multimedia processor allows you to display local or far-end video and graphics overlaid or full screen. SystemTwo will support virtually any display device including monitors, flat

panels or a large screen projector. What's more, because the SystemTwo runs on the powerful MediaPOINTE AV/IP operating platform, you can annotate or collaborate with video, documents, whiteboards and computers... in a room, over a network or around the globe. And its upgradeable, plug and play architecture evolves with changing technology – and your changing needs.

# SystemTwo
