

Media POINTE

System 2i

The new **MediaPOINTE System 2i** is the AV industry's latest price/performance superstar. The System 2i combines the remarkable performance of the award winning MediaPOINTE Operating Platform, featuring the world's most advanced set of AV/IP capabilities, with a price you'll find equally rewarding. The System 2i is designed to be a fully integrated and scalable system to support virtually any room integration requirement including microphones, cameras, motorized shades, screens and controlled lighting.

The MediaPOINTE System 2i is technically superior to traditional custom A/V Systems in virtually all critical areas. And when it comes to flexibility, consider that the System 2i is compatible with virtually all displays including projectors, plasma and LCD monitors. System 2i allows you to collaborate with videoconferencing options; XGA resolution to the far end, multipoint capabilities, electronic whiteboards, and an array of A/V sources from VCR's and DVD's to resolution document cameras.

System 2i
