

MONITORING SWITCHERS

Monitoring Switchers

Sierra Video Systems line of HD, digital and analog routing switchers are a perfect solution for video environments that need to keep tabs on multiple video sources. These one- and two-output routing switchers are an ideal fit for high volume broadcast and post-production facilities where signal monitoring and/or maintenance are crucial.

FEATURES:

Sierra Video Monitoring Switchers are a reliable, compact solution for:

- Broadcast studios
- Post-production facilities
- Live-to-air environments
- Remote trucks
- Duplication houses
