

Hamlet AudioChex™

A REAL-TIME AUDIO MONITORING, AND SIGNAL ANALYSIS SOFTWARE PLATFORM, WITH AUTOMATIC AND OBJECTIVE ANALYSIS OF AUDIO FROM EXTERNAL SOURCES OR OFF LINE AVI'S, VOB'S, MPEG OR WINDOWS MEDIA FILES.

Features and Functions

- Multi-window display
- Audio monitor and Vector, all modes
- new intuitive surround sound 3D polar display of amplitude, phase and frequency
- Audio levels, phase, waveform, monitor
- Video preview monitor,
- Time code logging of errors
- SnapShot™ modes enabling comparison of traces
- Displayed on PC screen, transmit or email

The Hamlet AudioChex is a software based audio monitoring and measurement tool. Operating on a Windows platform, the Audio monitor, Vector and associated Surround Sound 3D Audio displays with the Picture can all be displayed on the PC's monitor screen, stored or transmitted as required. The real time Hamlet AudioChex displays look like those on conventional audio monitors with variable intensity, persistence and graticule brightness. The Audio bar graphs displays have peak hold and may have the associated graticules scales and ballistics selectable from digital, VU, PPM and Nordic etc. The user can scale all displays to be any size from full screen to thumbnails. Screen Layout permits a user definable multi window split display. All layouts can be saved with the other AudioChex setting as users defined presets for convenient recall. Audio waveforms can be displayed in standard oscilloscope type view with variable amplitude and time base.

TECHNICAL SPECIFICATION

SYSTEM REQUIREMENTS

Windows-based desktop PCs older than 2002 may not be able to run it or be slow.

* Windows-based notebook PCs older than 2003 may not be able to run it or be slow.

* Apple Macintosh computers are not supported.

Minimum configuration:

* Operating system: Windows XP Home with DirectX 9.0 or higher installed.

* CPU speed: Intel(r) Pentium(r) PIII 1.8 GHz

* System memory (RAM): 256MB

* 200MB Free hard-disk space

* 3D graphics card: 3D-capable video card with 32MB VRAM

* 1024x768, 32-bit true colour screen LCD or CRT

Recommended configuration:

* Operating system: Windows XP Home or Pro

* CPU speed: Intel(r) Pentium(r) P4 2.4GHz+ or AMD 2400xp+

* System memory (RAM): 512MB or more

* 2GB Free hard-disk space

* 3D graphics card: AGP or PCI-X with 64MB VRAM or greater

* 1024x768, 32-bit true colour screen

* Firewire IEEE1394 ports and/or Video capture card

WARRANTY: - 1 Year.

Extendable free on registration: - To 2 Years
