

# PORTABLE MODULAR MEASUREMENT, MONITORING AND TEST SIGNAL GENERATORS

## MICROFLEX™

**MODULAR, HAND HELD, COMBINED MEASUREMENT, MONITORING AND TEST SIGNAL GENERATION CAPABILITY. HD, SD AND COMPOSITE SIGNALS, EMBEDDED, AES/EBU AUDIO AND EXTERNAL REFERENCE INCLUDED. A MODULAR APPROACH USING PATENTED “ALL DIGITAL” PROCESSING.**

- World's smallest modular hand held HD, SD, Composite measurement instrument with generator capability
- External reference or AES/EBU input
- Data and error analysis, time code logging of assigned errors
- Easy access to full functionality: Parade (YCrCb), 2H, H, Hmag, 2V, V, Vmag, Full fieldline select, Bow tie, Ext - ref, HFT™ - (Hands Free Timing™), Filtering
- Digitally accurate cursor measurement and Safe Area Generation
- Colored displays of waveforms, vectors audio bar graphs and phase display
- Select audio source, bar graph type, peak hold, de-emphasis
- Picture display in 4:3 or 16:9
- Built-in monitoring speaker, output jack
- Operator and factory store and recall presets
- Patented, proprietary processing of all signals
- Computer remote control, up/download data via the USB port or connection via new RJ45 option
- Internal battery or 12 VDC powered, mains adapter included

### Module options:

- HD, SD Test Signal Generator, Measurement and Monitoring Module
- HD, SD Measurement and Monitoring Module
- SD, Composite Measurement and Monitoring Module
- Other Modules to follow.....

### Other options:

- RJ45, Carry case and Option Pouches

## FLEXISCOPE™

**HAND HELD, MODULAR, COMBINED MEASUREMENT, MONITORING AND TEST SIGNAL GENERATION CAPABILITY. HD, SD AND COMPOSITE SIGNALS, EMBEDDED, AES/EBU AUDIO AND EXTERNAL REFERENCE INCLUDED. A MODULAR APPROACH USING PATENTED “ALL DIGITAL” PROCESSING.**

- World's first modular hand held HD, SD, Composite measurement instrument with generator capability
- Data and error analysis, time code logging of assigned errors Easy access to full functionality: Parade (YCrCb), 2H, H, Hmag, 2V, V, Vmag, Full field line select, Bow tie, Ext - ref, HFT™ - (Hands Free Timing™), Filtering
- External reference or AES/EBU input
- Digitally accurate cursors measurement and Safe Area Generation
- Coloured displays of waveforms, vectors audio bar graphs and phase display
- Select audio source, bar graph type, peak hold, de-emphasis.
- Picture display in 4:3 or 16:9
- Built-in monitoring speaker, output jack
- Operator and factory store and recall presets
- Patented proprietary 10 bit processing of all signals
- Computer remote control, up/downloads data via the USB port or connection via new RJ45 option
- Internal battery or 12 VDC powered, mains adapter included

### Module options:

- HD, SD Test Signal Generator, Measurement and Monitoring Module
- HD, SD Measurement and Monitoring Module
- SD, Composite Measurement and Monitoring Module
- Other Modules to follow.....

### Other options:

- RJ45, Carry case and Option Pouches
