

Rev Up Your Graphics with Inscriber[®] G7[™]

Order the **G7[™] Power Promo** system and shift your graphics into high gear with the new Inscriber[®] G7[™]! The Inscriber[®] G7[™] system delivers 2D and 3D real-time graphics flawlessly in HD and SD over two channels. Featuring integrated clips, stills, DVE, and full AES audio support, the system also incorporates RTXports[™] for driving third-party real-time applications, such as data streams from arena scoreboards, without needing a separate playout device.

The **G7 Power Promo** system comes equipped with G-Scribe[™] creation and playout software, featuring new video capture and 3D charting capabilities and the enhanced G-3D[™] design module. The G-3D design module has everything operators need for generating dramatic, true 3D broadcast designs in both HD and SD. With the RapidFire[™] keyboard, operators can crank out graphics at high speeds that will outshine the competition.

The **G7 Power Promo** system is charged with:

- Single Channel
- Clips
- RTXports[™]
- Broadcast Paint
- RapidFire[™] keyboard
- G-Scribe+[™] (includes G-3D design module, video capture and 3D charts)
- G-Scribe[™] Offline
- Four days of onsite training per site (expenses to be paid by customer)
