

## ST-ROTR roto rack system

Employing the same heavy duty base and sliders as our commercial unit, the ST-ROTR will handle loads up to 250 pounds. Construction is of 14 and 16 gauge cold, rolled steel, including the adjustable, vented shelves. Shelves include moveable brackets to secure components in place and eliminate sliding. Brushed aluminum bar stock dresses the leading edge of each shelf. The rack extends a full twenty inches from its frame and is then capable of rotating 90 degrees in either direction, allowing unobstructed access to components regardless of their depth. The system locks in the closed position with security panel and screws provided. Easy and effective cable management system.

ST-ROTR

Integral cable management

### features

- Heavy duty steel construction.
- 250 pound capacity.
- Available with up to six adjustable shelves.
- Rotating base with positive stops at zero and 90 degrees in either direction.
- Integral wire management.
- Ventilated shelves with brushed aluminum leading edge.

Model	Height	Overall Width	Usable Depth	Total Shelves	Weight Capacity
ST-ROTR-30	29"	19-1/4"	19"	4/3	275 lbs.
ST-ROTR-36	35"	19-1/4"	19"	5/4	275 lbs.
ST-ROTR-42	41"	19-1/4"	19"	6/5	275 lbs.
W-ROTR-30	29-1/2"	19-1/4"	19"	4/3	275 lbs.
W-ROTR-36	35-1/2"	19-1/4"	19"	5/4	275 lbs.
W-ROTR-42	41-1/2"	19-1/4"	19"	6/5	275 lbs.

Posi-lock™ stops at center, 90 degrees left and 90 degrees right.

W-ROTR

## W-ROTR roto rack system

Next to join the Raxxess family of ROTR rotating racks is a system designed for installing non-rackmountable audio and video equipment in cabinetry or behind walls. Our innovative pull out/rotating makes wire connections an easy task. Available in a variety of sizes with up to 6 adjustable shelves, the W-ROTR ships knocked down. The W-ROTR has integral wire management points and includes cable ties.

### features

- 200 pound weight capacity.
- Adjustable 3/4 inch melamine shelves.
- Three sizes and up to six shelves.
