

Designed primarily for non-linear editing, the "MAKO 3c" combines a tight wrap-around edit position with an integral producer/client position. The freeform shape works best with an *optional* left side equipment cabinet or desktop extension. Standard features include the following:

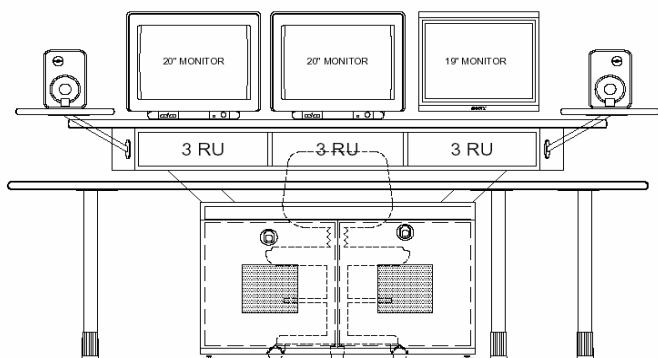

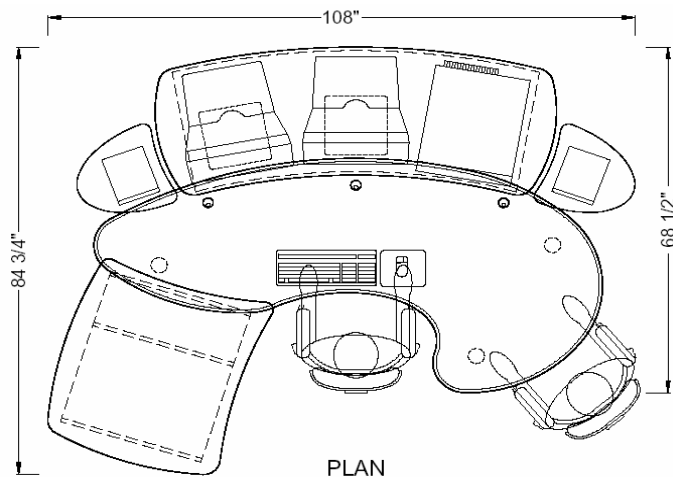

- 3 bay curved turret@ 3 ru per bay;
- 2 bay base cabinet with 11 ru per bay (adjustable shelves are a no cost option);
- removable front vented panels; open back;
- 3 X metal post legs with floor levelers;
- laminate or linoleum desktop finish with black bumper edge;

(shown with *optional* speaker modules, left side equipment cart, and solid mahogany desktop)

base model: **\$3,875**

(shipping + handling additional)
